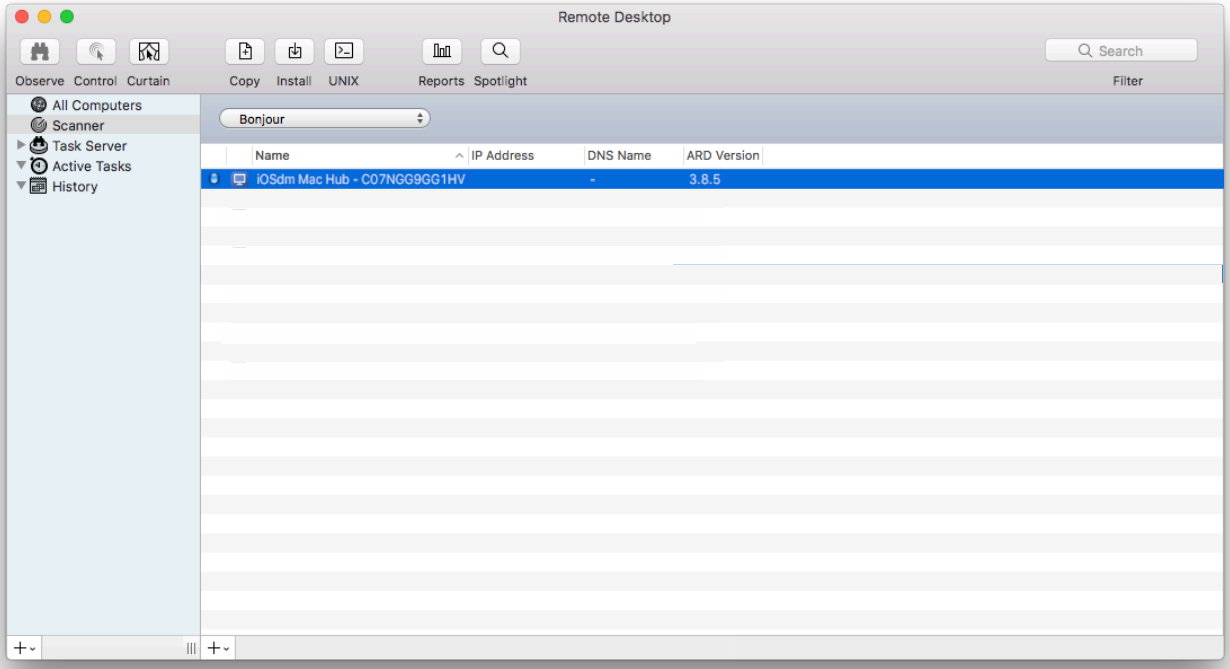
1. Log in to the Apple User of the Visual Merchandising Portable and launch Remote Desktop using Spotlight.
2. Ensure the Mac is connected to the Apple Demo network.
3. If Remote Desktop prompts for a password, use the VMP's administrator credentials.
4. Click Scanner on the left side column below All Computers.
5. Select Bonjour from the drop down menu in the upper left of the window. (If no iOSdm Hub is listed under Bonjour, select the Local option and check again.)



1. Select the iOSdm Mac Hub from the list and click Control in the top left corner.
2. When prompted to enter the Username and Password for the iOSdm Mac Hub, enter the credentials provided on pass.apple.com, accessible via a Backstage iMac.
3. Remote Desktop will display the login screen for the iOSdm hub.
4. Log in to the iOSdm user using the login credentials provided on pass.apple.com
5. Launch the iOSdm application from the Dock.
